

Support the Iona City Park Playground Project

Join Us in Making Play Possible

Become a sponsor today!

Mountain America Credit Union
Jessie Blackburn,

The City of Iona invites you to participate in a unique, one-time sponsorship opportunity that will leave a permanent mark on our community.

Our residents are coming together to **replace the aging playground equipment** in our well-loved city park—a space that welcomes tens of thousands of visitors each year. Earlier this year, the community selected **a new farm-themed playground** design that celebrates Iona's agricultural heritage. The current playground equipment is in urgent need of replacement.

To bring this project to life, we are seeking local sponsors who believe in investing in our community's future. **Your support will be publicly recognized and permanently featured** as part of this legacy project. We are currently working with local metal artisans to create meaningful and lasting displays of gratitude, including potential naming rights for the playground, individual equipment pieces, benches, and custom metal sculptures.

We chose to reach out to you because of your generosity and the positive impact you've had on our community. **Your contribution will help build a joyful, beautiful space for generations to come—while honoring your family or business in a lasting way.**

Thank you for your consideration,

Iona Playground Fundraising Committee

Iona Playground

The heart of Iona. With a walking path, pickleball courts, community pavilions, baseball fields and so much more, Iona Park is an ideal gathering place to play and enjoy our vibrant community. The current playground is in need of urgent replacement and you can help make it happen!

Current Playground

Rusted areas and exposed metal on current equipment present hazards for the kids who play at Iona Park.

Community Feedback

Our residents voted on the design they felt best represented our community's needs and heritage. A playground to honor Iona's agricultural roots and reflects the pride we have in our history

Looking Forward

The new farm themed design is not only charming and nostalgic—it is also inclusive, accessible, and built for the next generation of Iona families.
